

Safety Data Sheet

SECTION 1: Identification of the substance/mixture and of the company/undertaking

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Revision date: 03/17/2015 Supersedes: 07/21/2009

| 1.1.      | Product identifier  |   |        |
|-----------|---|---|--------|
| Product   | form  | : Mixture   |        |
| Product   | name  | : Propane Odorized  |        |
| CAS No    | )   | : 74-98-6   |        |
| Other m   | leans of identification   | : Liquefied Propane;<br>Dimethylmethane;<br>Liquified Petroleum Gas or LPG  |        |
| 1.2.      | Relevant identified uses of the subs                                      | stance or mixture and uses advised against  |        |
| Use of t  | he substance/mixture  | : Commercial petroleum industry product.  |        |
| 1.3.      | Details of the supplier of the safety                                     | data sheet  |        |
|           | Newell Gas<br>306 Main St<br>Michigantown, IN 46057<br>PH: (765) 249-2866 |   |        |
| 1.4.      | Emergency telephone number  |   |        |
| Emerge    | ncy number  | : CHEMTREC: 1-800-824-9300  |        |
| SECT      | ION 2: Hazards identification   |   |        |
| 2.1.      | Classification of the substance or n                                      | nixture   |        |
| Classifi  | ication (GHS-US)  |   |        |
| Simple    | Asphy H380  |   |        |
| Flam. G   | as 1 H220   |   |        |
| Liquefie  | d gas H280  |   |        |
| Full text | of H-phrases: see section 16  |   |        |
|           |   |   |        |
| 2.2.      | Label elements  |   |        |
| GHS-US    | S labeling  |   |        |
| Hazard    | pictograms (GHS-US)   | :<br>GHS02 GHS04  |        |
| Signal w  | vord (GHS-US)   | : Danger  |        |
| Hazard    | statements (GHS-US)   | : H220 - Extremely flammable gas<br>H280 - Contains gas under pressure; may explode if heated<br>H380 - May displace oxygen and cause rapid suffocation   |        |
| Precaut   | ionary statements (GHS-US)  | <ul> <li>P210 - Keep away from heat/sparks/open flames/hot surfaces No smoking</li> <li>P377 - Leaking gas fire: Do not extinguish, unless leak can be stopped safely</li> <li>P381 - In case of leaking gas fire, eliminate all ignition sources if safe to do so</li> <li>P403 - Store in a well-ventilated place</li> <li>P410+P403 - Protect from sunlight. Store in a well-ventilated place</li> </ul> |        |
| 2.3.      | Other hazards   |   |        |
| Other ha  | azards not contributing to the<br>ation                                   | : Radon-222 may be present in a neglible amount (see Section 16 for more information concerning radioactivity).   |        |
| 2.4.      | Unknown acute toxicity (GHS-US)   |   |        |
| Not app   | licable   |   |        |

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| 3.2. Mixture    |                    |       |  |
|-----------------|--------------------|-------|--|
| Name            | Product identifier | %     | Classification (GHS-US)  |
| Propane         | (CAS No) 74-98-6   | >= 90 | Simple Asphy, H380<br>Flam. Gas 1, H220<br>Compressed gas, H280  |
| Ethane          | (CAS No) 74-84-0   | < 6   | Flam. Gas 1, H220<br>Compressed gas, H280  |
| Isobutane       | (CAS No) 75-28-5   | < 2.5 | Simple Asphy, H380<br>Flam. Gas 1, H220  |
| Propylene       | (CAS No) 115-07-1  | < 5   | Flam. Gas 1, H220<br>Compressed gas, H280  |
| Ethyl Mercaptan | (CAS No) 75-08-1   | < 0.1 | Flam. Liq. 2, H225<br>Acute Tox. 4 (Oral), H302<br>Acute Tox. 4 (Inhalation), H332<br>Aquatic Acute 1, H400<br>Aquatic Chronic 1, H410 |

### Full text of H-phrases: see section 16

| SECTION 4: First aid measures            |   |
|--|---|
| 4.1. Description of first aid measures   |   |
| First-aid measures general :             | If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.  |
| First-aid measures after inhalation :    | Call 911 or emergency medical service. If not breathing, give artificial respiration. If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. |
| First-aid measures after skin contact :  | In case of frostbite spray with water for at least 15 minutes. Apply a sterile dressing. Obtain medical assistance.   |
| First-aid measures after eye contact :   | Seek medical attention immediately. Contact with the liquid may cause frostbite and serious<br>damage to eyes. Irrigate copiously with clean, fresh water for at least 15 minutes, holding the<br>eyelids apart.  |
| First-aid measures after ingestion :     | Rinse mouth. Do NOT induce vomiting. Vomiting: prevent asphyxia/aspiration pneumonia.<br>Obtain emergency medical attention.  |
| 4.2. Most important symptoms and effects | , both acute and delayed  |
| Symptoms/injuries :                      | Asphyxiation. Freeze burns.   |
| Symptoms/injuries after inhalation :     | Cough. Shortness of breath. Vapors may cause dizziness or suffocation. Some may be<br>irritating if inhaled at high concentrations.   |
| Symptoms/injuries after skin contact :   | May cause frostbite.  |
| Symptoms/injuries after eye contact :    | May cause frostbite.  |
| Symptoms/injuries after ingestion :      | This product is a compressed gas; hence oral exposure and resulting acute toxity are unlikely.  |
| Chronic symptoms :                       | Inhalation may produce mild intoxication, drowsiness, or loss of coordination. High concentrations produce intoxication followed by loss of consciousness, asphyxiation, and death. Caution is recommended for personnel with pre-existing central nervous system disorders. Personnel with pre-existing chronic respiratory diseases should refrain from breathing this material.                                      |

### 4.3. Indication of any immediate medical attention and special treatment needed

Epinephrine and other sympathomimetic drugs may initiate cardiac arrhythmias (irregular beating) in persons exposed to this material.

| SECTION 5: Firefighting measures            |   |
|---|---|
| 5.1. Extinguishing media                    |   |
| Suitable extinguishing media :              | Small Fire: Dry Chemical or CO <sub>2</sub> . Large Fire: Water spray or fog.   |
| Unsuitable extinguishing media :            | Do not use a heavy water stream.  |
| 5.2. Special hazards arising from the subst | tance or mixture  |
| Fire hazard :                               | EXTREMELY FLAMMABLE. Will be easily ignited by heat, sparks or flames. Vapors from<br>liquefied gas are initially heavier than air and spread along ground. Vapors may travel to source<br>of ignition and flash back. Cylinders exposed to fire may vent and release flammable gas<br>through pressure relief devices. |
| Explosion hazard :                          | May form flammable/explosive vapor-air mixture. Containers may explode when heated.<br>Ruptured cylinders may rocket.   |
|   |   |

Propane Odorized Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| 5.3. Advice for firefighters                                 |  |
|--|--|
| Firefighting instructions : Protection during firefighting : | Move containers from fire area if you can do it without risk. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out. Do not direct water at source of leak or safety devices; icing may occur. Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank. ALWAYS stay away from tanks engulfed in fire. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.<br>Wear positive pressure self-contained breathing apparatus (SCBA).Structural firefighters' |
|  | when handling refrigerated/cryogenic liquids.  |
| <b>SECTION 6: Accidental release measu</b>                   | res  |
| 6.1. Personal precautions, protective equip                  | ment and emergency procedures  |
| General measures :   | DO NOT EXTINGUISH A LEAKING GAS FIRE UNLESS LEAK CAN BE STOPPED. Remove<br>ignition sources. Evacuate area.  |
| 6.1.1. For non-emergency personnel                           |  |
| Emergency procedures :                                       | Evacuate unnecessary personnel.  |
| 6.1.2. For emergency responders                              |  |
| Protective equipment :                                       | Equip cleanup crew with proper protection.   |
| Emergency procedures :                                       | Ventilate area. As an immediate precautionary measure, isolate spill or leak area for at least 100 meters (330 feet) in all directions. Keep unauthorized personnel away. Stay upwind. Keep out of low areas.  |
| 6.2. Environmental precautions                               |  |
| Prevent entry to sewers and public waters. Notify a          | uthorities if liquid enters sewers or public waters.   |
| 6.3. Methods and material for containment                    | and cleaning up  |
| For containment :  | ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All equipment used when handling the product must be grounded. Stop leak if you can do it without risk. Do not walk through spilled material. If possible, turn leaking containers so that gas escapes rather than liquid. Use water spray to reduce vapors or divert vapor cloud drift. Avoid allowing water runoff to contact spilled.  |
| Methods for cleaning up :                                    | All equipment used when handling the product must be grounded. Prevent entry into waterways, sewers, basements or confined areas. Isolate area until gas has dispersed.  |
| SECTION 7: Handling and storage                              |  |
| 7.1. Precautions for safe handling                           |  |
| Additional hazards when processed :                          | Handle empty containers with care because residual vapors are flammable. Flammable gas.<br>Hazardous waste due to potential risk of explosion.   |
| Precautions for safe handling                                | Use only with adequate ventilation. Wear appropriate personal protective equipment and use exposure controls. Avoid all contact with skin and eyes. Avoid breathing product dust or vapors. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Do not reuse container. Remove contaminated clothing immediately. Wash with soap and water after working with this product.  |
| Hygiene measures :   | Contaminated work clothing should not be allowed out of the workplace. Do not eat, drink or smoke when using this product. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.   |
| 7.2. Conditions for safe storage, including                  | any incompatibilities  |
| Technical measures :   | Proper grounding procedures to avoid static electricity should be followed.  |
| Storage conditions :   | Keep only in the original container in a cool, well ventilated place away from: all heat sources, direct sunlight, where freezing is possible, incompatible materials, and away from oxygen cylinders or other oxidizers by a minimum distance of 20 feet, or by a barrier of non-combustible material at least 5 feet high having a fire rating of at least 1/2 hour. Store in the original container or an approved alternative made from compatible material. Do not store in unlabelled containers. Treat empty containers in a similar fashion as residual product may exist. Keep container closed when not in use. Keep in fireproof place.                                   |
| Incompatible products :                                      | Strong bases. Strong acids.  |
| Incompatible materials :                                     | Sources of ignition. Direct sunlight. Heat sources.  |
| Storage temperature :  | <= 50 °C (Based on Propane content)  |
| Storage area   | Store in a weil-ventilated place.  |

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### 7.3. Specific end use(s)

Commercial petroleum industry product.

| SECTION 8: Exposure controls/personal protection |                                  |   |  |  |
|--|----------------------------------|---|--|--|
| 8.1. Control parameters                          |                                  |   |  |  |
| Propane (74-98-6)                                |                                  |   |  |  |

| Ethyl Mercaptan (75-08-1)                        |                                  |   |  |  |
| ACGIH  | ACGIH TWA (ppm)                  | 0.50 ppm  |  |  |
| ACGIH  | Remark (ACGIH)                   | URT irr; CNS impair   |  |  |
| OSHA   | OSHA PEL (Ceiling) (mg/m³)       | 25 mg/m³  |  |  |
| OSHA   | OSHA PEL (Ceiling) (ppm)         | 10 ppm  |  |  |

| 8.2. Exposure controls            |  |  |
|-----------------------------------|--|--|
| Appropriate engineering controls  | Provide adequate general and local exhaust ventilation. Ensure exposure is below occupational exposure limits (where available).   |  |
| Personal protective equipment     | Avoid all unnecessary exposure.  |  |
| Materials for protective clothing | Nitrile.   |  |
| Hand protection :                 | Wear chemically resistant protective gloves.   |  |
| Eye protection :                  | : Employees should be provided with and required to use splash-proof safety goggles and shields where there is any possibility of product coming in contact with the eyes. Ensure t eye wash station is operable and nearby. |  |

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Skin and body protection | : Wear fire resistant clothing (FRC).   |
|--------------------------|---|
| Respiratory protection   | : Depending on airborne concentration, a full-face supplied air respirator is recommended |
|                          | because air purifying respirators cannot provide adequate protection.                     |

## **SECTION 9: Physical and chemical properties**

| 9.1. Information on basic physical and ch   | emical properties                              |
|---|--|
| Physical state                              | : Gas  |
| Color                                       | : Colorless gas or liquified gas               |
| Odor  | : Distinct skunk-like odor                     |
| Odor threshold                              | : Not Established<br>Not Established           |
| рН  | : Not Applicable                               |
| Relative evaporation rate (butyl acetate=1) | : Not Established                              |
| Relative evaporation rate (ether=1)         | : Not Established                              |
| Melting point                               | : Not Established                              |
| Freezing point                              | : -305 °C (-517°F)                             |
| Boiling point                               | : -44 °C (-47°F)                               |
| Flash point                                 | : -160 °C (-256°F)                             |
| Auto-ignition temperature                   | : 449 °C (840°F)                               |
| Decomposition temperature                   | : No data available                            |
| Flammability (solid, gas)                   | : No data available                            |
| Vapor pressure                              | : 208 psig max @ 100°F                         |
| Relative vapor density at 20 °C             | : 1.5 at 101 kPa                               |
| Relative density                            | : No data available                            |
| Specific gravity / density                  | : 0.51 at 40 °F                                |
| Solubility                                  | : Insoluble.                                   |

### SECTION 10: Stability and reactivity

### 10.1. Reactivity

Not reactive under normal use and conditions.

10.2. Chemical stability

This product is anticipated to be stable under normal ambient storage and handling conditions of temperature and pressure.

10.3. Possibility of hazardous reactions

Hazardoes polymerization will not occur.

10.4. Conditions to avoid

Air contact. Heat, sparks, open flame, and other ignition sources.

### 10.5. Incompatible materials

Oxidizing agent. chlorine. fluorine. bromine and metal catalysts.

### 10.6. Hazardous decomposition products

Products of thermal decomposition include sulfur oxides, carbon oxides and nitrogen oxides.

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| SECTION 11: Toxicological information      |   |  |
|--|---|--|
| 11.1. Information on toxicological effects |   |  |
|  |   |  |
| Acute toxicity                             | : Not classified  |  |
| Propane ( \f )74-98-6                      |   |  |
| LD50 oral rat                              | NE  |  |
| LD50 dermal rabbit                         | NE  |  |
| LC50 inhalation rat (mg/l)                 | 658 mg/l/4h   |  |
| ATE US (vapors)                            | 658.000 mg/l/4h   |  |
| ATE US (dust, mist)                        | 658.000 mg/l/4h   |  |
| Additional information                     | This product is non-toxic and is a simple asphyxiant; however, it does have slight anaesthetic properties and higher concentrations may cause dizziness.  |  |
|  |   |  |
| Ethane (74-84-0)                           |   |  |
| Additional information                     | From a toxicologic standpoint, methane and ethane are of low anaesthetic potency and are practically inert; however, at very high concentrations, they act as a simple asphyxiant and can cause suffocation by displacement of oxygen from breathing atmosphere, below the critical level of 16% oxygen that is required to sustain life. |  |
| Propylene (115-07-1)                       |   |  |
| ATE US (vapors)                            | 86000.000 mg/l/4h   |  |
| Isobutane (75-28-5)                        |   |  |
| LC50 inhalation rat (ppm)                  | 570000 ppm  |  |
| ATE US (vapors)                            | 658.000 mg/l/4h   |  |
| Ethyl Mercaptan (75-08-1)                  |   |  |
| LD50 oral rat                              | 682 mg/kg American Industrial Hygiene Association Journal. Vol. 19, Pg. 171, 1958.  |  |
| LC50 inhalation rat (ppm)                  | 4420 ppm/4h American Industrial Hygiene Association Journal. Vol. 19, Pg. 171, 1958.  |  |
| ATE US (oral)                              | 682.000 mg/kg body weight   |  |
| ATE US (gases)                             | 4420.000 ppmV/4h  |  |
| ATE US (vapors)                            | 11.200 mg/l/4h  |  |
| ATE US (dust, mist)                        | 1.500 mg/l/4h   |  |
| Skin corrosion/irritation                  | : Not classified  |  |
|  | pH: Not Applicable  |  |
| Serious eye damage/irritation              | : Not classified  |  |
|  | pH: Not Applicable  |  |
| Respiratory or skin sensitization          | : Not classified  |  |
| Germ cell mutagenicity                     | : Not classified  |  |

| Reproductive toxicity :                          | Not classified                            |  |
| Specific target organ toxicity (single exposure) | Not classified                            |  |
| Propane (74-98-6)                                |   |  |
| Additional information                           | Exposure may have adverse health effects. |  |
|  |   |  |

| Specific target organ toxicity (repeated exposure) | : Not classified  |  |
|--|---|--|
| Propane (74-98-6)                                  |   |  |
| Additional information                             | Repeated exposure may cause frostbite injuries, respiratory, and central nervous system effects, depending on routes of exposure. |  |

Propane Odorized Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Aspiration hazard                    | : Not classified   |  |
|--------------------------------------|--|--|
| Symptoms/injuries after inhalation   | Cough. Shortness of breath. Vapors may cause dizziness or suffocation. Some may be<br>irritating if inhaled at high concentrations.  |  |
| Symptoms/injuries after skin contact | : May cause frostbite.   |  |
| Symptoms/injuries after eye contact  | : May cause frostbite.   |  |
| Symptoms/injuries after ingestion    | : This product is a compressed gas; hence oral exposure and resulting acute toxicity are unlikely.   |  |
| Chronic symptoms                     | Inhalation may produce mild intoxication, drowsiness, or loss of coordination. High concentrations produce intoxication followed by loss of consciousness, asphyxiation, and death. Caution is recommended for personnel with pre-existing central nervous system disorders. Personnel with pre-existing chronic respiratory diseases should refrain from breathing this material. |  |

| SECTION 12: Ecological information |   |
|------------------------------------|---|
| 12.1. Toxicity                     |   |
| Ecology - general                  | : This product has no known eco-toxicological effects.        |
| Ecology - water                    | : This product is not expected to be harmful to aquatic life. |

| 12.2.             | Persistence and degradability  |  |  |
|-------------------|--------------------------------|--|--|
| Propane (74-98-6) |                                |  |  |
| Persis            | tence and degradability        | Readily biodegradable.   |  |
|                   |                                |  |  |
| 12.3.             | Bioaccumulative potential      |  |  |
| Propane (74-98-6) |                                |  |  |
| Biocor            | ncentration factor (BCF REACH) | log BCF is about 1.56-1.78; therefore the product is not expected to accumulate. |  |
| Bioaco            | cumulative potential           | No ecological damage caused by this product.                                     |  |
| Propane (74-98-6) |                                |  |  |
| Log Po            | WC                             | 2.3  |  |

### 12.4. Mobility in soil

| Ethane (74-84-0) |   |
|------------------|---|
| Mobility in soil | If released to soil, ethane is expected to have very high mobility based upon an estimated Koc of 37. |

| 12.5. Other adverse effects  |  |    |
|--|--|----|
| Effect on the global warming   | No known ecological damage caused by this product.   |    |
| Other information  | Avoid release to the environment.  |    |
| <b>SECTION 13: Disposal considerations</b>   | S  |    |
| 13.1. Waste treatment methods  |  |    |
| Waste disposal recommendations : It is recommended that this product, in any form, be incinerated in a suitable combustic chamber for disposal. Empty containers should be disposed of in a similar fashion due presence of product residue. Follow applicable Federal, state and local regulations. |  |    |
| Additional information   | Handle empty containers with care because residual vapors are flammable. Hazardous waste due to potential risk of explosion. |    |
| Ecology - waste materials : Avoid release to the environment.  |  |    |
| SECTION 14: Transport information  |  |    |
| In accordance with DOT   |  |    |
| Transport document description   | : UN1075 Petroleum gases, liquefied or Liquefied petroleum gas, 2.1  |    |
